

S66 Leading questions for discussion on stakeholder analysis and networking for rehabilitation services

(These questions can be used in case the discussion need a change of focus, more variation or when discussions don't run well)

- How could you identify the stakeholders in a country in all the various domains of rehabilitation (anatomical, psychological, functional, social participation and economic)?
- Do stakeholders know of each other's existence
- What networks exist in your countries in the area of rehabilitation?
- Do you know if your governments ratified the Convention on the Rights of Disabled Persons?
- How strong are NGO's in your countries?
- What are barriers in your countries in allowing persons affected by leprosy to general rehabilitation services?
- What are opportunities in your countries in allowing persons affected by leprosy to general rehabilitation services?
- Are there any antagonisms in your countries between various organisations that are doing rehabilitation?
- Do you know of the existence of any Disabled People Organisations?
- What is the link between the various ministries in your countries when it comes to rehabilitation, whose responsibility is it?
- Do your countries have an official policy on rehabilitation?
- What type of rehabilitation takes place in institutions and what at community levels?
- What do families and communities do in case one of their members becomes disabled?
- What happens to marriage / work / social acceptance of disabled persons?

A good method is also to ask a pair of participants to prepare some leading questions, based on their common sense and their experience. And to instruct them to throw it in the discussion when the session takes place.
