

Session 8 Integration and referral

Page 141 (game planning stage)

(At the end of the list of resources add the following:)

Additional resources can be thought of, e.g.:

4x4 wheel-drive (reach of 100km)	20,000 IMU
Rent an ambulance	500 IMU/day
Radiophone (via satellite)	1000 IMU/year
Telephone has to be paid for	50 IMU/call
A supervisor who travels to a health centre	150 IMU/day

Please remember that the population of small towns (red dots) is 5000 inhabitants, while each village has 1000 inhabitants.

The walking distance is 10km for non-urgent conditions. In urgent conditions patients cannot walk.
